Education

Techno Main Salt Lake — Kolkata, India
B.Tech CSE (Cyber Security) — *2024 – Present*
YGPA: 7.74 1st year, 8.05 2nd year

P.B. Academic School — Kolkata, India
Higher Secondary (ISC, Computer Science) — *2022 – 2024*
92% best of 4, 88.8% overall

National Public School — Kolkata, India
Primary, Middle & Secondary (ICSE, PCMC) — *2012 – 2022*
89.6% best of 5, 88.5% overall

Experience

Co-Founder & Full-Stack Developer — 2024 – Present
CacheCrew
- Co-founded a hackathon team that has designed and shipped multiple full-stack, cross-platform applications
- Built real-time backends, computer-vision pipelines and responsive front-ends end to end
- Progressed through multiple Smart India Hackathon internal rounds, owning delivery and demos under tight deadlines

Backend Developer — 2024 – 2026
IIC TMSL
- Built and shipped backends for user registration and payment websites for club events
- Maintained existing organization sites from updating REST APIs to managing frontend UX

Self-Taught Developer — 2019 – Present
Independent
- Continuous self-directed learning across web, app, game and systems programming, picking up new languages and frameworks quickly

Projects

traffIQ | *Python, Computer Vision, ANPR, GIS*
- City-wide AI engine linking CCTV and ANPR cameras into unified multi-camera vehicle tracking and traffic analytics

CaseSync | *TypeScript, React, Elysia, MongoDB*
- Full-stack AICTE complaint platform consolidating cross-bureau cases with overlap detection, SLA tracking and an audited lifecycle

Safe Ping | *Python, Flet, FastAPI, WebSockets*
- A secure workspace and chat application with real-time WebSocket communication

Showtime Hub | *Java, Swing, AWT*
- Desktop movie-booking simulator with a custom file-based data store, built in pure Java — hackathon winner

Auto Updater | *C#, Unity, Networking*
- Cross-platform installer and updater with remote-controllable update behaviour

Technical Skills

Languages: Java, JavaScript, Python, C, C#, Rust, Go, Dart, Lua, SQL
Web, Mobile & APIs: React, Svelte, Flutter, Flet, Node.js, Express, FastAPI, WebSockets, Firebase
Computer Vision: OpenCV, ANPR, Edge Inference
Databases: MongoDB, PostgreSQL, SQLite
Game Dev: Unity, Godot
DevOps & Tools: Linux, Git, GitHub, Vercel, Render
